CHRONOLOGICAL LIST OR INDEX

Of Grants *en fief* and Royal Ratifications of Grants *en fief*, made in New France, to the time of its Cession to the British Crown in 1760.

In publishing the subjoined Index, the Compiler feels it necessary to state that from the nature of the case, it is impossible for him to warrant its entire freedom from error.

He has, however, himself compiled the whole of it, and with extreme care, although under severe pressure, from the shortness of the time within which the work had to be done, and from the variety and extent of the other investigations which he had to be constantly making while it was in progress. It is, moreover, unavoidably printed more hurriedly than he would have wished. Still, upon the whole, he lays it before the public, with a feeling of confidence that it will be found, on critical examination, to contain no material errors, and in fact to be what in common *parlance* may be called complete and correct.

It contains mention, as he believes, of every grant and ratification of grant *en fief*, down to 1760, printed in any of the Volumes lately laid before Parliament. In the First Column is stated the volume and page on which the document referred to is to be found in the English version. In the Second Column, the same information is given for the French version. Wherever more than one reference is given, the explanation is to be found in the fact that duplicate or triplicate copies of the document have been printed. Where a blank occurs in either column, no copy of the document has been found to be printed in the language indicated by such column.

The Letters A, B, C and D, in these Columns, indicate respectively the first, second, third and fourth of the Volumes in question.

In some instances it will be found that the reference indicates, not a printed copy *au long*, of the document in question, but only such mention of it as establishes its existence, date or general tenor.

Mention is also made of every other grant or ratification, of which the Compiler has been able to ascertain the existence. These are, of course, readily distinguishable from those printed or mentioned in the Volumes laid before Parliament, by the circumstance of there being no reference made as to them in either of these Columns to such Volumes.

Wherever the Compiler has been able to obtain copies of such documents, the fact is indicated by the insertion of the words "*copy obtained*," in the Last Column. Where these words are not so inserted, it is to be understood that the Compiler has only succeeded in ascertaining the existence of the document.

The date contained in the Third Column is that of the issue of the document in France and is so given, of course, only for such of them as did first issue there.

The date given in the Fourth Column is that of the issue, or enregistration, (as the case may be,) of each document *here*. This column has been left in blank, in those cases only, as to which this date is not apparent.

In the Fifth Column mention is made of the parties, grantor and grantee, in each case.

Wherever the entry made in this Column is printed in *Italics*, such mode of printing is designed to indicate the fact that the document in question is a Royal Ratification only, and not to be counted as a grant at all. To make this the clearer, the letter "(R)" is also prefixed to such entries.

The mark "†C." occurring in three instances to the right of this Fifth Column, is meant to indicate the fact, that the documents in question embody as well a grant *en censive* as a grant *en fief*.

The mark "O" occurring in the like position, indicates that for one or another reason suggested in the course of his researches, the Compiler has not reckoned the document so marked as a subsisting grant, in his counting up of those made during the several periods which he has noted. Many of these grants are so noted, as having been afterwards re-granted, confirmed or re-united to the domain; others, as appearing never to have taken possession of by the grantee; and some, merely because the Compiler could not satisfy himself that they were subsisting grants.

The mark "V" also occurring in the same position, is intended to note the grants made beyond the limits of Lower Canada.

Where the two marks "O" and "V" occur together, they indicate the fact that the grant was made out of Lower Canada, and was besides afterwards re-united to the Crown Domain.

In the Last Column are given the names of the several Seigniories to which each document (so far as the Compiler has been able to ascertain) relates; together with a note of reference designed to direct attention to other grants affecting in any way the same Seigniorie.
